

## CAREGIVER LIMITATIONS

Water Tower Nursing and Home Care, Inc. (WTN) is a Home Services Agency licensed by the Illinois Department of Public Health. WTN employees/home service workers (caregivers) provide non-medical home services in accordance with the rules and regulations of the Home Health, Home Services and Home Nursing Agency Code (77 Ill. Adm. Code 245). WTN home services are intended to enable the Client to remain safely, comfortably and independently in his or her own personal residence.

The following is a list of duties that a WTN Caregiver may **NOT** provide. WTN would be happy to discuss any Client specific questions you may have about the services WTN caregivers may provide.

1. **WTN Caregiver may NOT** be responsible for any type of medical assessment or medical care.
2. **WTN Caregiver may NOT** assist clients who are in the process of being trained to use adaptive equipment for ambulation, such as walkers, canes or wheelchairs. These clients require supervision by an agency licensed to provide home health or home nursing services during the period of their training. Once the prescribing individual or the health care provider responsible for the training of the client is comfortable with releasing the client to work on his or her own with the adaptive equipment, a WTN Caregiver may assist with ambulation.
3. **WTN Caregiver may NOT** assist clients with bathing in a tub or shower when a client requires skilled skin care before, during, or after bathing. Skilled skin care includes wound care, dressing changes, application of prescription medications, skilled observation and reporting. This type of client shall be in the care of an agency licensed as a home health or home nursing services agency. A WTN caregiver may **NOT** assist a client with a bed bath until trained and competency evaluated on the particular methods to perform the bed bath. A WTN caregiver may **NOT** assist a client with a bed bath unless the client or client's representative participates in or directs the bathing process and provides ongoing feedback to the caregiver.
4. **WTN Caregiver may NOT** assist with application of an Ace bandage that can be purchased only with a physician's prescription (the application of which involves wrapping a part of the client's body) or with application of a sequential compression device that can be purchased only with a physician's prescription.
5. **WTN Caregiver may NOT** perform Passive Range of Motion exercises.
6. **WTN Caregiver may NOT** assist with feedings which include syringes, tube feedings or intravenous nutrition or feeding clients who may be at high risk of choking.
7. **WTN Caregiver may NOT** provide hair care with products that require a physician's prescription.
8. **WTN Caregiver may NOT** administer prescription or non-prescription medication of any type. Caregiver can remind the client about medication provided the medications have been pre-selected by the Client, a family member, a nurse, or a pharmacist and are stored in containers other than the prescription bottles. Caregivers may **NOT** perform or provide medication set-up for the Client.

## CAREGIVER LIMITATIONS

9. **WTN Caregiver may NOT** provide mouth care for clients who are unconscious.
10. **WTN Caregiver may NOT** trim nails on the hands or feet.
11. **WTN Caregiver may NOT** position Client when the Client is unable to identify verbally, non-verbally or through others when the position needs to be changed and when skilled skin care is required in conjunction with the positioning.
12. **WTN Caregiver may NOT** assist a client with shaving unless it is with an electric or a safety razor.
13. **WTN Caregiver may NOT** provide skin care when skin is broken, and when any chronic skin problems are active. The skin care may **NOT** be therapeutic in nature, such as the application of medicated lotions and solutions requiring a physician's prescription.
14. **WTN Caregiver may NOT** insert or remove catheters of any type or provide care of external catheters. Ostomy care which requires accompanying skilled skin care and observation and reporting to a nurse is also prohibited. Caregivers may **NOT** perform digital stimulation, insert suppositories or give an enema.
15. **WTN Caregiver may NOT** assist clients in the use of mechanical or electrical transfer devices unless the client or client's representative is fully trained in the use of the equipment and able to direct the transfer step by step. A WTN caregiver may **NOT** assist with the equipment until trained and a competency evaluation conducted on the caregiver using the type of device that is available in the home. Adaptive equipment may include, but is not limited to, wheel chairs, tub seats, and grab bars.
16. **WTN Caregiver may NOT** provide respiratory care, including postural drainage; cupping; adjusting oxygen flow; nasal, endotracheal and tracheal suctioning; and turning off or changing oxygen tanks.
17. **WTN Caregiver may NOT** conduct any of the Client's financial transactions outside of the contracted services.
18. **WTN Caregiver may NOT** become or act as a Power of Attorney of the Client.
19. **WTN Caregiver may NOT** drive the Client in any vehicle without completion of necessary WTN paperwork and prior WTN authorization.
